Dear Mr. Gregg,

I am writing this letter to inform you of my excitement for the new West Jacksonville Medical Center. This is a great benefit to our community, and future generations that grow up in west Duval County.

Many of our residents have to go to Orange Park to receive medical attention. With this medical center, we will be able to receive superior medical care right in our area. Ambulances will be more convenient and it will make wait times lower for both Orange Park and West Jacksonville Medical Center.

The West Jacksonville Medical Center will build our economy. It will provide jobs for our residents, and also has the possibility of attracting more businesses as hotels and restaurants tend to populate around hospital facilities. Further more, the medical center will pay sales tax to our county, which will benefit our schools and community as a whole.

I believe that West Jacksonville Medical Center is a great benefit for our community. It will contribute to our medical well-being, as well as contribute financially to our residents. I am greatly looking forward to the opening of this facility.

Sincerely,
